PHOTOGRAPHER  
ILLUSTRATOR  
& GRAPHIC DESIGNER

**I** am graphic designer and photographer who has experience in fashion magazines in Thailand and various international projects. I spent 4 years studying photography in Ladkrabang University, Bangkok, Thailand.

Before graduating, I had a chance to be an apprentice in 'A Studio', Thailand's famous advertising photography studio. Other work experience whilst at university included being a fashion photographer for the 15th anniversary issue of 'The Boy', a Thai teenage magazine, and during my final semester I was able to work full-time as a photographer of 'Thaibody', an international bodybuilding online magazine managed by 'EAST24 co.ltd' from the Netherlands.

After graduating, I conducted freelance work regarding drawing and graphic design, as this has

been my passion since I was young. I started my first job with 'Addict', a fashion & business magazine, where I did fashion photography and also lay-out design. After this, I moved to be a fashion & editorial photographer for 'Sudsapda', a famous Thai lifestyle magazine.

I have been commissioned by numerous people and companies for freelance projects. These include working as a photographer and website designer for a music trainer who works with Thailand's Royal Family and many Thai's artist's; Logo design and photography for American CBS TV show 'No Apologies by Leyla Fatima'; A fashion photographer for 'FAUVE Magazine', a Balinese Magazine, and many more.
